<i>Preface</i>	<i>xv</i>
Introduction: Systems Leadership: What Use Is Theory?	1
Relating theory to practice	1
Language – social and scientific	2
The practical value of good theory	3
People and science	4
Developing a common language	5
PART 1 PRINCIPLES OF BEHAVIOUR	9
1 Principles of Behaviour	11
Introduction	11
Principle 1: People are not machines	11
Principle 2: People need to be able to predict their environments	14
Principle 3: People’s behaviour is value based	16
Principle 4: People form cultures based upon mythologies	22
Principle 5: Change is a result of dissonance	25
Principle 6: It is as important to understand social process in detail as it is to understand the detail of technical process	29
Principle 7: Understand the difference between prediction of a population’s behaviour and the prediction of an individual’s behaviour	29
Principle 8: It is better to build relationships on the basis of authority rather than power	32
Principle 9: Clarity of boundaries is the basis of freedom	35
PART 2 THE NATURE OF WORK AND ORGANISATIONS	37
2 What is Work?	39
Introduction	39
Human work and identity	41
3 Human Capability	45
Elements of individual capability	45
So why not include experience, competencies or personality/temperament?	49
Nature or nurture?	50
Caveats	52
Summary	56

4 Meritocracy	59
Introduction	59
Organisational principles alternative to merit	59
Authoritarian versus democratic organisations	61
Summary	63
5 Associations and Employment Hierarchies	65
Introduction	65
Associations	65
6 The Work of the Board with the Executive Team	73
Determining purpose, policy, systems and strategy	73
Summary	77
7 Leadership, Power and Authority	79
Leadership	79
Power and authority	81
Summary	84
8 Levels of Work	85
Organising work	85
What is muddled?	85
How are they related?	87
All levels of work are essential	94
Role and person	95
Summary	96
PART 3 SYSTEMS LEADERSHIP	99
9 The Work of Leadership: Creating a Culture	101
The work of leadership	101
The three tools of leadership	104
10 Leadership, Policy and Systems	107
The role of policy and systems	107
Tool for analysing systems	110
Summary	113
11 Task Formulation and Assignment	115
What are tasks?	115
Human work, tasks and the exercise of discretion	115
People and task assignment	117
Task definition extended	121
Issues in task assignment	122
12 Authorities and Role Relationships	131
Introduction	131
What is a manager?	132
Manager-subordinate relationships	133
Authorities of the supervisor	137
Role relationships	141

13 Key Systems	143
Introduction	143
Sources of influence	143
People systems	145
Task feedback and review	148
Performance planning and performance review	151
Performance evaluation	153
Summary of performance evaluation systems	160
Salary administration	161
Identifying and developing potential	163
Succession planning	166
Discipline and appeal	167
Summary	171
14 Teams and Teamwork	173
Introduction	173
The false duality	173
‘Team’ tasks, goals and rewards	174
Team decisions	176
Team processes	176
Summary	184
PART 4 MAKING CHANGE HAPPEN – PUTTING THEORY INTO PRACTICE	187
15 The Process of Successful Change: How is it Achieved?	189
Introduction	189
Successful change process	190
Summary	200
16 Systems and Symbols Audit – Organisational Health Check	203
Analysis of systems, symbols and behaviour	203
Purpose of an audit	203
Audit steps	203
Conclusion	212
17 How to Design Systems	213
Introduction	213
Significance	213
Complexity	214
Criteria: the 20 questions	215
Practical examples	222
18 Creating High Performance Teams	231
Working together	231
The course	232
Cultural relevance	239
Core social process skills for leaders	244

19 So What? What Difference Has This Made?	245
Introduction	245
Comalco	247
Hamersley Iron	253
20 Implementation: Discipline or Dogma?	259
Introduction	259
Reviewing content and process	260
Conclusion	262
21 Who Is There to Guard the Guards? Essentials of a Positive Organisation	263
Checks and balances	263
The employment charter	266
Foundations for this charter	268
22 Complementary Theories and Practices	271
Introduction	271
Theories we have used in our own practice	272
Lean manufacturing	273
Myers-Briggs type indicator	274
Systems and other approaches to organisation and management	275
Conclusion	277
<i>Bibliography</i>	279
<i>Index</i>	285
